

REGISTRATION FEES

The registration fee includes:

- admission to the scientific sessions
- coffee breaks and lunches
- goodbye cocktail
- private access link to all the recorded sessions
- tips and tricks video clips collection on pendrive

Early rate: 2000 Euros

- payment received UNTIL January 31, 2023
- VAT included

Late rate: 2500 Euros

- payment received FROM February 1, 2023
- VAT included

Maximum number of attendees: 20

Online registration available on

LIVE SURGERY

with Enrico Robotti

Rhinoseptoplasty requires dedication and a long learning curve. This is even more true with the nuances and complexities of secondary rhinoplasty. This is the most complex scenario where a clear algorithm, flexibility in intraoperative choices, attention to detail and mastery of numerous tips and tricks make the true difference in results.

This specific, intensive, course will allow attendees to understand and learn in every detail my current approach to rib grafting in secondary rhinoplasty. By interactive live HD connection with the operating room, as well as by the extensive use of talks and videos, I will share in-depth with the attendees

all my current favorite techniques in autologous rib grafting, including the use SPF-SPLF technique to provide aesthetic dorsal lines. Four revision cases with rib will be demonstrated in all their steps, focusing on the decision process and extensively commenting every technical detail.

Secondary rhinoplasty is a difficult operation and mastery of autologous rib grafting is indispensable for those who want to practice it actively. It is my belief that this course will provide, due to its classroom like format, a special and unique learning experience.

Enrico Robotti

ITEMS WHICH WILL BE COVERED

- Preop analysis of the secondary patient
- The relevance of cone-beam CT scan in analysis - planning
- Rib harvesting
- Harvesting perichondrium and rectus fascia
- Rib shaping and laminating
- Current variations of DCF: the Robotti SPF (sandwich perichondrium – fascia) and SPLF technique (sandwich perichondrium – rib lamina – fascia construct)
- Free diced cartilage from rib and rib cartilage “paste”
- Access to the tip and dorsum
- Proper dissection in difficult planes
- Power tools and piezo for osteoplasty and osteotomy
- Use of available residual septum and perforated ethmoid plate
- Finesse reconstruction of dorsal and tip by rib laminations - the L-strut
- Rib septal extension grafts, lateral crura struts, sidewall reshaping and else
- Combined constructs with the residual septum
- Trans-osseous suturing of the L-strut
- Camouflage to the tip by perichondrium and else
- Preservation concepts applied to secondary rhinoplasty
- Personal special instruments for refined rhinoplasty practice
- Postop care and what matters practically

DAY 1

Thursday - April 20, 2023

- 08.00 **INTRODUCTION KEY CONCEPTS/ TECHNIQUES MASTERCLASS ON FINESSE IN USING RIB IN SECONDARY RHINOPLASTY**
- 09.15 CASE ANALYSIS
- 09.30 CASE 1
- 15.00 CASE ANALYSIS
- 15.30 CASE 2
- 20.00 DAY REVIEW

DAY 2

Friday - April 21, 2023

- 08.15 CASE ANALYSIS
- 08.30 CASE 1
- 14.00 CASE ANALYSIS
- 14.30 CASE 2
- 19.30 DAY REVIEW
- 21.00 SOCIAL DINNER

DAY 3

Saturday - April 22, 2023

- 08.15 VIDEOFOCUS on Managing the DORSUM with Rib Grafting (including case examples in detail)
- 09.00 VIDEOFOCUS on Managing the TIP with Rib Grafting (including case examples in detail)
- 09.30 VIDEOFOCUS on Specific Personal TIPS&TRICKS
- 10.00 COFFEE BREAK
- 10.30 PIEZO and POWER TOOLS for Osteotomy and Osteoplasty Videofocus
- 11.00 STRAIGHTENING THE SEPTUM and CROOKED NOSE Videofocus
- 11.30 VIDEOCLIPS on finesse RIB grafting techniques in SECONDARY RHINOPLASTY (Harvesting, laminating and using rib, tailoring the DCF/SPF/SPLF grafts)
- 12.00 SECONDARY RHINOPLASTY WITH RIB: the steps in summary (edited video)
- 12.30 “Speak up!” Burning questions and unresolved issues
- 13.00 Cases brought by attendees
- 13.30 Adjourn and goodbye cocktail
